

24 July 2014

DATACENTRE.ME Summer 2014 update including events and video PR

I hope you are keeping well... no doubt you are looking forward to the summer break which is precisely why I'm emailing now - before I go away for my holidays...

First of all, I would like to say what a run-away success our last networking event was. The theme was **"Data Centre Connectivity"** and took place on the evening of 3rd July in a brand new venue near St Paul's Cathedral in London. A massive thank you to all concerned - sponsors and attendees alike. See photos of the evening here <https://plus.google.com/117293477836156702206/posts/Gr6q8DnwhBQ?authkey=CLX93obchNKbfw&pid=6034052402263728386&oid=117293477836156702206>

Our events are gaining such a massively good reputation in the industry but don't just take my word for it - check out this brand new video to include footage and testimonials from sponsors and guests <https://www.youtube.com/watch?v=SIImfWW6T6I&feature=youtu.be>. This video was expertly created by our good friend John Allard from [The Video News Factory](#). Video news PR via John and his team can be viewed here <http://www.datacentre.me/content/what%E2%80%99s-on-dcn-tv?-41522.htm> - your company may also benefit from this service from an unbelievably low £395 per month - more details can be found on the same link or feel free to contact me directly. Simply ask me for an introduction or mention DATACENTRE.ME when you call to receive your preferential rates.

As I think you know by now, the DATACENTRE.ME networking events are very kindly funded by our sponsors which means that tickets are strictly reserved for end users and customers only. If your organisation sits on the vendor side of the fence, therefore, I'm afraid that you will either need to sponsor a future event or the DATACENTRE.ME website to be able to attend. Please ask for details.

Our new venue was a big hit with all present and, thanks to the extra room that we now have, we are able to grow our future networking events from 150-200 registrants, starting with the **"Data Centre Design & Build"** event on the evening of Thursday 23rd October.

Many thanks in advance to October's sponsors:

- Workspace Technology www.workspace-technology.com
- Keysource www.keysources.co.uk
- Riello UPS www.riello-ups.co.uk
- Schneider Electric www.schneiderelectric.com
- Uninterruptable Power Supplies Ltd www.upspower.co.uk
- GEA Denco Systems www.gea-heatexchangers.com
- Telehouse Europe www.telehouse.net

***** **STOP PRESS*******

ONE FINAL SPONSORSHIP OPPORTUNITY ONLY IS AVAILABLE: As we are growing this event, we have space for one extra sponsor on a strictly first come, first served basis. Please let me know if you'd like further details.

Far more details regarding our past and future events (including attendee lists and testimonials) can be found here <http://www.datacentre.me/content/free-to-attend-networking-events-41524.htm>

Website Sponsors:

We are delighted to announce that our friends at both [Riello UPS \(www.riello-ups.co.uk\)](http://www.riello-ups.co.uk) and [Constant Power Services \(www.constantpowerservices.com\)](http://www.constantpowerservices.com) have renewed their annual DATACENTRE.ME website sponsorship.

In addition, [Equinix](http://www.equinix.com) have recently signed up as top level Premiere Elite DATACENTRE.ME website sponsors. I'm sure you're all familiar with Equinix but here is some information that perhaps you don't know:

About Equinix:

"Equinix is the leading global interconnection platform. We accelerate business performance by connecting companies to their customers and partners inside the world's most networked data centres.

In fact, more than 4,500 of the world's most demanding companies trust us to provide a place where they can run and grow their businesses and most of the top Internet, financial services, communications and cloud leaders safeguard and interconnect their IT infrastructure in our sites. This means we're protecting, connecting and powering the digital economy.

We're different because only we deliver a global data centre platform with the expansive reach, trusted reliability, network density and established business ecosystems proven to strengthen performance and speed growth"

Please visit www.equinix.co.uk for more information or contact Andrew McCreath or Antonella Crimi in the London office on +44 (0) 845 219 8104.

As always, massive thanks goes out to each and every one of our cherished DATACENTRE.ME website sponsors - we very much appreciate your ongoing support which allows us to continue offering the website's benefits free of charge to our users:
